Sauleda Solar Pro Force

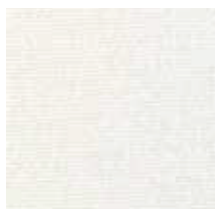

Force se fabrica con Fibra Acrílica de Alta gama (FC). Este proceso le aporta las siguientes cualidades:

- Excelente comportamiento mecánico
- Resistencia extrema
- Menos elasticidad que los tejidos técnicos convencionales
- Dulzura al tacto
- Brillo y luminosidad excepcional
- Protección 80 en la escala UV
- Tejido experto en la confección de elementos para la protección solar de características específicas.

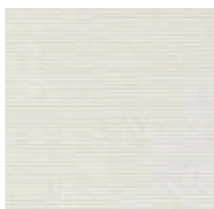

Force is made with high quality Acrylic Fibre (FC). This process gives it the following properties:

- Excellent mechanical behaviour
- Extreme resistance
- Less elasticity than conventional technical fabrics
- A soft texture
- Exceptional shine and luminosity
- 80 UV protection factor
- Expert fabric for manufacturing elements for solar protection with special characteristics.
